

## **TREASURER'S REPORT 2016**

Our finances are healthy and whilst our income was down by 30% this was due to a decrease in Gift Aid, (last year being the first time we have received any from CBKA) and a reduction in Group Purchasing.

We are, however, well placed to continue our aims of improving the Public's awareness of beekeeping via shows and school visits, as well as helping new beekeepers through the Group Apiary and Safaries.
